COMMISSION ON NARCOTIC DRUGS

MANUFACTURE OF NARCOTIC DRUGS AND PSYCHOTROPIC SUBSTANCES

*/ This document is Annex II to the Summary of Annual Reports for 1981 (E/NR.1981/SUMMARY).

V.83-54387

Note by the Secretary-General

The Secretary-General has the honour to communicate herewith information received from governments with regard to manufacture and conversion of narcotic drugs and psychotropic substances during 1981. This information is taken from annual reports for 1981 filed with the Secretary-General by the parties as at 15 December 1982 and is presented in accordance with a decision taken by the Commission at its twenty-sixth session. */

International non-proprietary names have been used where available. In a number of instances, the reporting authorities also furnished the proprietary names under which specific narcotic drugs or psychotropic substances were distributed. While the data thus furnished are available from the Secretariat, it was not possible, for technical reasons, to include them in the present document.

For ease of reference in the lists that follow narcotic drugs are preceded by an asterisk.

The index lists the narcotic drugs and psychotropic substances actually manufactured in 1981 and the firms responsible for their manufacture.
